WEDNESDAY MORNING, NOVEMBER 22, 1905,

### Best Sign of the Times

TOGETHER the best sign of the times is to be found in the fact that the people of these territories are at last waking up to the necessity of doing something to secure statchood. A large portion of the masses of both territories have been very slow to believe that the folding "push" was really working to keep the territories in their condition, but that fact has become so patent of late that no one can longer doubt it. The people at last see that the "push" and other selfish why not? Who objects and why?interests have been moving heaven and earth to deceive congress as to the real sentiments of the people of New Mexico and Arizona upon this subject, and to make congress and the president believe that practically the whole population of both territories would rather remain out indefinitely than come In as one state. But the fact is that all the people of the two territories, except those who are actuate d by purely selfish motives, want to come into the union on the best terms that congress is willing to give us. Some prefer tion. separate statehood for each territory, and others prefer joint statehood for the two, but practically all are willing to let congress in its wisdom determine which it shall be. Hitherto they have taken it for granted that the matter territories as well as the rights of their people will likely be sacrificed to the mously in favor of Joint statehood, and petitioned the president to recommend in other parts of that territory, and the people of Arizona will show the auxious for statehood an any terms that congress may grant

to which the progressive people of the territory have already replied, in the words of General Grant-We have no terms to offer except unconditional surrender," [Tflat expressos where the masses of the people of New Mexico stand upon this issue. Their motto is, "Statehood on the best terms congress will give -and down with the knockers!"

### The Result of Crossing

HE children of Israel beat old Phuraoh to a finish by crossing the Red sea, and now we are told that they are going to beat all the rest of to mention that little tale of the late us by crossing themseives. In an address which he delivered at the annual meeting of the Educational alliance in New York, Mr. dacob H. Schiff declared his belief that the crossing of the various classes of Jews If you Kill the Dandruff Germ With who had been driven to this country by persecutions elsewhere, would result In producing the greatest Jew the world had ever known-that is,the American Jew. And attention is called to the fact that this declaration by dandruff, so badly that R caked on Mr. Schiff is directly in line with the opinion of Mr. Luther Burbank, the "plant wizard," to the effect that the crossing of races in this country will produce the finest human stock the world has ever known.

Mr. Schiff was speaking especially of the terrible persecutions and disasters of the Jews of Russia, and predicted it would mean an immense migration to this country on the part of the race to which the Russians are so unfriendly. He said we should keep our doors wide open in welcome to them, and gave as one reason for this the expected high development of the litching instantly and makes hall Jew under the untrammeled freedom of American institutions and the mingling here of the bloods of the five or six principal Jewish races,

OUR Miss Nancy neighbor at Las Vegas was prostrated again Monday evening with an awful attack of Journalitis. Beg pardon, sissy, we didn't know we were sitting on you.

### Willing to Help

HE Morning Journal will gladly co-operate with the council and the decent people of the city in regulating, controlling or abolishing the predict a successful engagement. Both the comedy and serious loving people dens of iniquity which are just now most conspicuous on North Third are to be entertained. "The Great street, but all those who take part in this word work must remember. Conspiracy" will provide the exhibit street, but all those who take part in this good work must remember that human laws are not automatic. They will not execute themselves, and us a general rule it is very difficult, and sometimes almost impossible for the best of officers to execute the best of laws, unless sustained by public sentiment. Hence the best way to carry forward a reform measure such as the in new roles. Remember for three one in hand is for its friends to get together, at the start, and agree among themselves as to what they want to do and how they want to do it, so that all can work together in the same way to the same end, and all take part in educating public sentiment up to the point where it will assist the officers piete without in enforcing the law. The crucial fact in the whole matter is, that no movement can succeed without public sentiment behind it.

at can succeed without public sentiment behind it.

THE Grand Army post of this place will hold a regular meeting at its hall gow, manufacturers of time-saving on Saturday evening of this week, and extends a cordial invitation to all veterans of the city, not members of the post, to come around and get acquainted. Among the thousands of sojourners at present in Albuquerque, and the other thousands who have made their homes here during the past year, there must be quite a number of veterans of the great war, and their divide the contents of their canteens as they ever were in "the days that tried may know The Globe Store makes men's souls." The election of officers for the contents of their canteens as they ever were in "the days that tried may know The Globe Store makes men's souis." The election of officers for the coming year will take place January 1, 1906, we will make one at the meeting Saturday evening. The ranks of the old boys are being more pair of trousers extra with each sult at the meeting Saturday evening. The ranks of the old boys are being more rapidly thinned out with each passing year, and it is consequently becoming Prices on suits constantly more necessary for them to "close up!".

A CURRENT newspaper item says the supreme court of the United States has decided that the owner of a building in which gambling is conducted may he held responsible for money lost in gambling on the premises, and that the s Hahn's Eureka lime. Effective and money can be recovered by law from the owner of the property who rents it to safe.

A FEW more seasons like the present would spoil New Mexico as a bers and when health resort, and make it a farming country. There is no richer or more are handy and convenient. Ask productive soil anywhere on earth, and with sufficient moisture on all these Mitchner and Lithgow, backbinders, plains we could raise crops that would astonish the world.
